25X1 * [] Comment. Operations of shuttle-trains between Jueterbog-Altes Lager,
which is the processing center for discharges and new recruits of the Third
Gds Mecz Army, and Haldensleben confirm to some extent the 7th Gds Tank Div
as being located in the southern portion of Letzing Heath. Since operations
of shuttle trains have also been observed between Jueterbog and Meissen,
it is believed that divisions of the First Gds Mecz Army also have discharges
of the 1927 class and recruits of the 1931 class processed via Jueterbog.
